WORK EXPERIENCE

Customer Operations Engineer (Intern)
EQUINIX SINGAPORE PTE. LTD
10/2025 – 07/2026

- Built an **audit management system** with 3 Power Apps modules and 9 Power Automate flows covering fault submission, SME review, rectification and Teams notifications, integrated with SharePoint and Excel.
- **Estimated to save ~62 hours/year** (74 to 11 hours, based on 10 errors/week) and cut Excel lookup time by routing each record to its monthly table instead of searching the whole workbook.
- Developed a **Google Apps Script pipeline** that parses Gmail alerts, extracts key transaction fields and logs structured data into Google Sheets in real time, eliminating manual data entry.
- Wrote full technical documentation for handover; supported data center customer operations and applied industry standards for fibre optic cabling.

Recommendation letter from Equinix available on request.

Freelancer AI Data Specialist
RWS GROUP
07/2026 – Present

- Evaluated AI model outputs for Chinese language naturalness, contextual accuracy and prompt alignment.
- Maintained strict quality control standards for training data sets used in natural language processing tasks.

Park Ambassador (Part Time)
RESORTS WORLD AT SENTOSA PTE. LTD
10/2024 – Present

- Verified admission tickets accurately and kept park entry operations running smoothly.
- Assisted guests with enquiries and directions, and managed large crowds in a professional, friendly manner.
